

Instructions for registering for the first time:

Please register so that you can login and have access to the whole forum to read and post. On the top right, next to the logo, it states:

“Welcome Guest. Please Login or Register.”

Click on “Register”

You will be presented with a Registration Form:

Chose any user name you want. It is what will show when you make a posting. Please remember your password, since admin does not have your password. You will need to enter a valid email, since the board needs to send you an activation key sequence to make sure you are a real person with a real email.

Select whether you want people to know your email, and your birthday. If you put in a fake birthday, then if you permit the calendar to tell everyone your birthday it will be wrong.

Select your gender, and whether you want people to know it.

Type in the letters of the security code which are jumbled and in color so a machine cannot register and post spam.

Read the Pro-board rules. You will have to check that you **agree** to be sent an activation number. Now click “Create Account.”

Pro-Board will email you an activation key. Check your junk mail if need be.

This is what the ASC forum screen will say now:

Confirmation Email Sent

An email has been sent to [your email] with an activation code to activate your account. In order to use your account, you must enter the activation code that is contained in that email. Please login below, and then enter the activation key that is provided to you in the email.

If you entered the wrong email address or do not receive your activation email, you will be able to update your email address and have a new activation key sent to you after you login. If you do not receive your registration email, you may want to check your Junk Mail folder that some email providers offer, as your registration email may be there.

Log-in with your chosen user-name and password.

When you try to log in the first time, pro board will ask you for your activation key.

Copy and paste the activation key from the email that they sent you into the spot where it says activation key.

Then, click: **ACTIVATE ACCOUNT.**
